

Gender LEAD RFQ 2024-902-00-001: Q&A

Question	Answer
What is the budget ceiling for this RFQ? Given that software customization and development costs can vary significantly based on factors such as the project's complexity, required features, and customization needs, can you provide a budget range or an indicative ceiling for this project?	We estimate a contract with \$50,000 thousand dollars ceiling.
Could you please let us know how the RFQ defines the eligibility criteria of "Organizations or companies that are not based or do not have an office/presence in the United States". Specifically, how does the RFQ define presence in the United States.	We are only able to accept quotes from companies registered in the United States, but a physical office is not required.
